THE POWER BEHIND YOUR PLANT

Rotary provides the full range of plant backup service you require. So you can concentrate on your own core business.

We offer:

- In-house design and upgrades.
- Electro-mechanical back-up services from our Sheffield & Birmingham works.
- Investment in the latest preventative maintenance.
- Diagnostics tests and plant asset maintenance routines
- 24 hour standby service

MORRIS
EST. 10 1985

Established in 1952

The UK's largest independent rewind company servicing the industry throughout the UK and world wide, employing over 100 employees.

The facilities include a 35 ton crane and the latest engineering equipment for diagnostics and repairs.

Our 100,000 square foot Sheffield factory was awarded ISO 9002 way back in 1987.
